

MOBILITY GAMES

Bridgepoint/ Ryerson/ Centennial study

We will be playing a multi-player interactive and mixed reality game for mobility scooters and power wheelchair (scooter/wheelchair) users and their friends and families. Your participation in the mixed reality capture the flag game will contribute to a better understanding of how scooter/wheelchairs can be integrated with a mobile touchscreen technology for the purpose of entertainment and social play.

Who

- Scooter/wheelchairs users with more than 1 year of experience. Participants do not need to have experience in playing games or using cell phones in order to take part.

What

- Participants will be asked to sign a voluntary consent form and waiver to participate.
- Attend a 2 and a half hour study involving playing a game (compensation of \$25 will be given to each participant).
 - Pre-questionnaires will consist of approximately 30 questions and post-questionnaires 33 questions.
- Participants will be asked to follow safety rules with their equipment and the emergency protocol in the unlikely event of an injury.
- Participants are encouraged to invite friends and family to join, however, only the participant will be financially compensated.
- The study will also be video recorded.

Where

Joel Weeks Park, 5 Matilda St, Toronto. Assistance with transportation costs, such as parking, can be provided.

When

- Saturday October 5, 2013 from 3 to 5 pm. E-mail or call to confirm interest and availability. A rain date we be scheduled for October 6, 2013 from 5 to 6 pm.
- Compensation and snacks will be provided.

How

Contact Margot Whitfield with your availability at margot.whitfield@ryerson.ca or call the Inclusive Media and Design Centre (IMDC) at 416-979-5000 ext. 7110.
